Quarterly Investor Reporting No. 1

Rantum Private Equity Fund II

Q1 2020

Introduction & Fund Update

Dear Investors,

Rantum is pleased to present the first quarterly investor reporting for Rantum Private Equity Fund II covering the time period until 31 March 2020.

Fund Update

On 30 August 2019, the Fund held its initial closing with total commitments of 70.5 Mio. EUR. We would like to thank our investors for their trust. Due to the coronavirus situation, discussions with further investors are currently on hold and will resume after the situation allows for business travel again.

Macro Update

The impact of the coronavirus situation dominated economic activities from March onwards, causing a severe economic recession. We are pleased to report that our first investment in the Fund has performed well and even had a positive trading on the back of the coronavirus crisis.

Investment Update

The Fund was able to sign its first investment on 19 December 2019. Closing took place on 13 March 2020. The fund invested 13.2 Mio. EUR for a 70.4% share in Bonowi IPE GmbH, a leading police equipment company based in Mainz/Germany. The Rantum deal team co-invested alongside the fund at the same terms. The overall Rantum equity share in the company is 74.9%. The founder Wolfgang Bopp retains a 25.1% minority stake. Entry valuation was 5.0x EBITDA. The transaction was sourced on an exclusive and proprietary basis. For more details please refer to pages 12-14.

Team Update

We are very pleased that Markus Wenz has joined the Rantum team as Executive Director starting 1 June 2020. Markus joins us from Deutsche Private Equity (DPE) where he was investing in various Mittelstand companies over the last few years. Before he joined DPE he had a career at Morgan Stanley in Frankfurt and London.

Pipeline Update

We saw a significant slowdown in deal flow since March with most of the active deals being put on hold as Mittelstand companies are totally focused on scrambling to evaluate the damage and impact of Coronavirus shutdowns to their respective businesses as much as sellers shying away from potential depressed valuations. The M&A market is quasi on hold for the time being and there is only a very limited number of transactions currently in the market. We expect this trend to continue until the second half of the year and maybe further to year end, at least until the global economy has shown first real signs of a sustainable recovery.

Nevertheless Rantum keeps 'open for business' in its segment of small and medium sized enterprises, the Mittelstand in the DACH region, with a very selective view to identify attractive, robust, market leading businesses in less or non-cyclical industries as well as a focus on add-on acquisition targets for the first portfolio company Bonowi.

The team is convinced to be able to find attractive opportunities upcoming in the next few months and has therefore put the entire Rantum industrial partners network on specific alert in order to proprietarily detect the right targets. In that respect we view the current Corona crisis as much as an opportunity as a challenge.

Portfolio Update

During the regular quarterly Valuation Committee meeting on 20 May 2020, the external auditor valued the investment at a fair value of 13.2 Mio. EUR which is equal to 100% of the capital invested for this transaction.

Bonowi: Transaction successfully closed. Strong start into 2020 with revenue, EBITDA and order entry all significantly above previous year. Positive outlook into the second half of the year.

Business Overview

BONOWI IPE GmbH (“BONOWI”), was founded by a former German police instructor in 1987 and is a leading supplier of specialist equipment and protection technology for both police forces and private sector security services. The company produces and distributes protective equipment including batons, bullet-proof vests and body armor that can protect and save lives. The asset light business is located in Mainz, Germany with approx. 40 employees. Total output in 2019 is c. €16.6m with c. €2.4m in EBITDA, a 14% EBITDA margin and a historical revenue CAGR of c. 30%. The management team possesses >100 years of combined expertise in the industry and has built a loyal customer base with its core footprint in Germany. BONOWI operates in a global growth sector driven by various macro trends, e.g. increased crime rates, spreading terrorism, and increased border protection measures accentuated by increased public spending due to the low yielding financial environment. This investment offers a unique fit with Rantum’s Industrial Partner network, who posses the expertise to support additional growth.

Investment Thesis

BONOWI is an organically growing, entrepreneurially-led, asset light, cash generative business with strong margins, operating in an attractive market with strong long-term growth prospects. The transaction was sourced on a proprietary basis through Rantum’s network at a modest valuation of around 5.0x EBITDA 2019. Future growth will be driven by a new product pipeline and strong demand in Europe. BONOWI is a strong buy-and-build case with 10 potential targets already identified (further deployment of approx. €50m additional capital) which could form a global market leader. Additional growth potential will be achieved from the development of a unique training center, capitalizing on significant unfilled demand of high-end training capacities for police forces across Germany with long-term tenant contracts from German government. Furthermore, there are future potential export markets with strong demand for protection technology “made in Germany”.

Key Transaction Facts

- 5.0x EBITDA multiple based on 2019 EBITDA

Capital structure post transaction:

Current Developments

Closing

The transaction closed on 13 March 2020 on time and on budget.

Offsite and 100 day plan

Over two days in March, Bonowi's management and the Rantum team met in Frankfurt to discuss the strategic program for the first 100 days of Rantum's ownership. Focus will be on relaunch of the website, mission statement/vision, implementation of appropriate R&D, sales and marketing and compliance processes and M&a/Add-on acquisition targets.

Corona-related current trading

Through existing relationships to China, Bonowi was able to source protective equipment (masks, overalls etc.) and sell it to the Federal Government of Germany. As a result, Bonowi was able to help in the fight against the first wave of the pandemic resulting in periodic revenues above last year.

By selling protective equipment Bonowi was able to add more than EUR 10m to its topline in April which more than compensates for the slight decline in the core business compared to last year due to Corona. The Core product business is currently picking up again as Corona related shutdowns are lifted.

New CFO Hire and Financial Reporting

The Rantum team identified and hired a new CFO for the company: Florian Brandt who previously worked for Munich-based private equity investor Aurelius and before at BCG and Horvath&Partner. Florian started on May 1. Alongside the CFO hire, Rantum introduced a new financial reporting system to the company.

Es ist uns eine Ehre und Verpflichtung zugleich, mit unseren Produkten und Dienstleistungen diejenigen zu schützen, die andere schützen und damit einen essentiellen Beitrag für den Bestand unserer Gesellschaft leisten – und das rund um den Globus. Geteilte Werte sind bei Bonowi nicht nur Einstellungskriterium sondern auch Motivation Außerordentliches zu leisten.

Innovationen die uns schützen

Innovationen, die dem Polizisten das Leben erleichtern und dazu beitragen ihn in Grenzsituationen zu schützen, sind die Mission von Bonowi. Ob Gewicht, Tragekomfort oder Schutzwirkung: Wir denken jeden Tag neu darüber nach, wie wir unsere Produkte im Interesse unserer Kunden weiter optimieren können.
